REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or to suggest, either alone or in combination, the steps of the claimed invention: "removing an oxide formed on the surface of said copper metal layer due to exposure of the surface of said copper metal layer to oxygen with a solution including an organic acid having at least one carboxyl group; and performing a heat treatment for growing grains of the copper". Although the admitted prior art teaches performing a heat treatment for growing grains of the copper, there is no prior art found which performs the heat treatment for growing grains of the copper in combination with the step of removing an oxide formed on the surface of the copper metal layer due to exposure of the surface of said copper metal layer to oxygen with a solution including an organic acid having at least one carboxyl group.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lynne A. Gurley whose telephone number is 571-272-1670. The examiner can normally be reached on M-F 7:30-4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John Niebling can be reached on 571-272-1679. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
